20 Lives Ignited: How 20 Women Over 60 are Creating Success on Their Own Terms features 20 strong, amazing women over the age of 60 sharing how they've overcome obstacles—whether in their personal or professional lives—and key ideas of what helped them succeed. Each chapter of 20 Lives Ignited features a woman's personal story of triumph. There are stories about women overcoming their struggles, as well as their journeys toward finding themselves and their purpose.

These women have overcome obstacles in spite of the odds stacked against them. And they are creating success on their own terms to inspire and motivate women and girls. The stories told by these charismatic women over 60 showcase wisdom, insight, and love that are applicable to a woman at any age and stage of her life.

Linda Laird Staszewski coordinated the production of 20 Lives Ignited: How 20 Women Over 60 are Creating Success on Their Own Terms. She set out on a journey to create a collection of amazing stories about even more amazing women and their path toward success.

Do you ever think you're "too old"? Or that it's "too late"? Or that no one has been through what's happening in your life right now?

Now is the time to realize you are brave enough, you can try, and you can make your goals a reality.

WHAT PEOPLE ARE SAYING

"20 Lives Ignited is a moving collection of stories from women over 60 who have walked through their personal fire and come out the other side stronger, smarter, and more in touch with themselves. Their stories are inspiring and offer a road map for others who are facing their own challenges. A must read from a sisterhood of survivors!"

Joan Roberts Hickman, President Hickman Roberts Production Inc.
